With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

DISHWASHING

Novel Liquid Presoak

Liquid Presoak & De-Tarnisher For Silverware

What is Novel Liquid Presoak?

A liquid presoak and detarnisher that will remove soils, stains & tarnish from silverware. Superb balance of softening agents & surfactants. Low foaming formula.

Benefits:

- Highly concentrated product
- Quickly breaks down food soils
- Rapidly removes stains and tarnish
- Low Foaming formula
- Offers high use yields.

Directions For Use:

Flatware: Use 1 oz. Of liquid silver for each gallon of 130°F to 140°F water.

Totally immerse stainless flatware in the solution and soak it for 15-20 minutes.

Remove presoaked ware and process through dish machine as normal.
