CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

EGG PROCESSING

EW 3000

Powdered Egg Wash & CIP Cleaner

What is EW 3000?

A powdered cleaner for use in automatic egg washing machines. Eliminates the waste and performance-control problems typically experienced when using egg wash powders. Contains special de-foaming agents to control foam caused from the cleaning process. Regular maintenance of the cleaning solution will drastically improve performance.

Benefits:

- Incredible non foaming formula.
- Highly concentrated for economical dilutions.
- Cleans and removes build up in one shot.
- Versatile enough to clean virtually any non aluminum surface.
- Can be used for boil-outs, soak tanks, and heavy cleaning applications.

Instructions:

For institutional or commercial use.

Before use, read product label and Safety Data Sheet.

Maintain a concentration of 0.5 to 3.0 oz per gallon of water in wash tank as necessary to maintain a minimum pH of 10.5. The use dilution required depends on the degree of soil and amount of egg breakage in the machine. Maintain wash water at a temperature that is at least 20°F higher than the egg itself, but not less than of 90°F. Do not use wash water containing greater than 2 ppm of iron. Follow washing with an approved sanitizing rinse. The temperature of the sanitizing rinse should be equal to or higher than that of the wash solution. Pack eggs only after they are completely dry.

Tech Specs:

Color.....White
 Fragrance.....Faint
 Form.....Powder
 Phosphates.....None
 FlashPoint.....212F
 pH.....NA
 Specific Gravity.....NA
 Viscosity.....Free Flowing
 Foam.....None
 Biodegradable.....100%
 Shelf Life.....1 Year

Available Packages	
2892-450	450lb Drum
2892-40	40lb Pail
2892-25	25lb Pail
