

# AUTOWORX

COMPLETE AUTOMOTIVE CLEANING SOLUTIONS

# Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

## **Synthetic Labs Complete Automotive Cleaning Solutions**

Since the mid-1980s Synthetic Labs has been manufacturing innovative, cutting edge car wash products, becoming a respected and leader in the industry. Synthetic Labs utilizes the latest formulation technologies and are continually improving product performance, increasing cost efficiency and maximizing our clients profits by reducing service related expenses. Economically priced, coupled with high performance, our premium Line of car wash solutions is the result of this experience.

Our professional car wash line includes products for every aspect of the industry from Full Service to Automatic Car Wash, to Manual Wash Systems; all are formulated and packaged to Synthetic Labs strict quality standards, as well as meeting the requirements and specifications of its partners. Synthetic Labs partners benefit from product support, marketing assistance, and technical sales assistance, provided by our in house full service team. Synthetic Labs high standards are reflected in our high performance and low cost complete line of products.

# PRESOAKS

## HIGH PH

## Advantage

Ref No. 4624

### Premium High Foaming Presoak

A fast rinsing alkaline presoak detergent that will provide quick and effective results. Starts breaking down road film on contact. Contains chelating agents and emulsifier for hard water applications. Specially formulated for operators who need a one step fast acting product. Also great for self serve prep guns.

**Recommended Application:** Automated Rollover

**pH:** 14      **Dilution:** 1:120-1:250

## Boost

Ref No. 4623

### High Alkaline Foaming Presoak

An economical highly alkaline presoak detergent that will provide quick and effective results. Starts breaking down road film on contact, preparing the surfaces for the brush cycle. Provides visual experience while lubricating brushes. Contains chelating agents for hard water applications. Also great for self serve prep guns.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 14      **Dilution:** 1:200-1:400

## Breakdown

Ref No. 4621

### Premium High Alkaline Foaming Presoak Plus Surface Enhancers

Superior alkaline detergent designed specifically for use as the high pH presoak or detergent in the 2-step low pH/high pH wash process. Leaves a streak free surface. Excellent for use in both frictionless in-bay automatics, and friction assisted conveyor car washes. Formulated with ecco rinse technology.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 14      **Dilution:** 1:120-1:300

## Mach One

Ref No. 4622

### Hard Water High Foaming Presoak

A special hard water alkaline high foaming liquid body shampoo that is designed to penetrate road film in friction wash applications. This product is a stronger cleaner and foamier than most alkaline detergents allowing the product to carry through friction and touchless systems.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 14      **Dilution:** 1:120-1:250

# PRESOAKS

HIGH PH

## Ultra 103

Ref No. 4763

### Concentrated High Foaming Presoak

A unique alkaline high foaming liquid body shampoo that is designed to penetrate road film in friction wash applications. This product is a stronger cleaner and foamier than most alkaline detergents allowing the product to carry through friction cleaning material while maintaining its cleaning and lubricating potential.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 14      **Dilution:** 1:300-1:600

## Supreme

Ref No. 1032

### Deep Cleaning Non Hazardous Presoak

A non hazardous presoak detergent that starts breaking down road film on contact. Designed for high and low pressure application. Contains chelating agents for hard water applications. Formulated for safe use on all OEM surfaces.

**Recommended Application:** Manual Wash System / High Pressure Wand

**pH:** 12.5      **Dilution:** 1:120-1:250

## HP Presoak

Ref No. 4722

### Premium High Foaming Neutral Presoak

Neutral foaming liquid presoak that is designed to be used in friction and manual applications. This product is a neutral strength cleaner used to loosen road film in prep gun and presoak applications. Its neutral properties make it a safe product to apply to vehicles in any conditions.

**Recommended Application:** Manual Wash System / High Pressure Wand

**pH:** 7      **Dilution:** 1:200-1:400

## Pro Tip

We have found that when using a Low pH / High pH two-step application process, the best results are when the Low pH product is applied first followed by the Alkaline Presoak with double the strength of the Low pH product. This is not a rule, however, some operators have found they get the best results by applying the Alkaline Presoak first. We recommend trying both processes to see which works best in your geographic area and for your customers.

When both Alkaline and Acidic Presoaks are applied to the same surface, there is neutralization that takes place. When one is applied, it combines with the dirt and then the second product is applied reacting with both the opposite presoak and the dirt, increasing the removal of dirt. The neutralization reaction in this instance is a benefit not a drawback.

# PRESOAKS

LOW PH

## Venture

Ref No. 4620

### High Foaming High Acid Presoak

A heavy duty non HF acid based presoak for use in automatic wash system. Penetrates deep into dirt and road film, instantly breaking the bond between dirt and the surface. High foaming and easier neutralization for better cleaning and presentation.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 1      **Dilution:** 1:200-1:400

## FS-1

Ref No. 4618

### High Foaming Acid Presoak

An acid based presoak for use as a step one in automatic wash system. Penetrates deep into dirt and road film, instantly breaking the bond between dirt and the surface. High foaming and easier neutralization for better cleaning and presentation.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 1      **Dilution:** 1:120-1:250

## Citrix

Ref No. 4626

### High Foaming Non Hazardous Low pH Presoak

A vibrant non corrosive low pH presoak. This special formula contains no harsh acids. This product produces a rich thick citrus foam to carry away surface debris. Prepares surfaces for the detergent and rinse cycles. Rinses easily to prevent foam from carrying through to other stages of the wash.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 1-2      **Dilution:** 1:200-1:400

## Formula One

Ref No. 0510

### Non Hazardous Low pH Presoak

A low pH non hazardous presoak cleaner that penetrates deep into dirt and road film, dissolving the bond between dirt and the surface. This product contains no harsh acids. This product prepares surfaces for foamers and drying agents, making the process more effective.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 1      **Dilution:** 1:150-1:300

# FOAMERS

## BODY SHAMPOO

### Synergy

Ref No. 4640

#### Premium High Foaming Detergent

A premium high foaming liquid neutral detergent that provides lubrication to any brush or cloth system to help eliminate scratching and friction. Foam will break fast making rinsing fast and easy. This product can be applied through a foamer or onto the bristles as a direct lubricant. Multiple fragrances and colors available.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7-8      **Dilution:** 1:200-1:400

### FX

Ref No. 4641

#### Multi Purpose High Foaming Detergent

A high foaming liquid neutral detergent that provides lubrication to any brush or cloth system to help eliminate scratching and friction. Foam will break fast making rinsing fast and easy. This product can be applied through a foamer or onto the brushes as a direct lubricant. Multiple fragrances and colors available.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7-8      **Dilution:** 1:100-1:300

### Foam Brush

Ref No. 4647

#### Lubricating Foam Brush Detergent

A high foaming liquid neutral detergent for use in manual wash systems. This product contains special lubricating materials that will provide lubrication to any brush, helping eliminate scratching. The high foam is stable and very easy rinsing. As foam runs off, dirt is carried away with it. Multiple fragrances and colors available.

**Recommended Application:** Tunnel / Manual Wash Systems

**pH:** 7-8      **Dilution:** 1:150-1:300

### Lubricity

Ref No. 4650

#### Lubricating Detergent For Tunnel Systems

A vibrant high foaming liquid detergent that provides lubrication and protection to any brush or cloth system to help eliminate scratching and friction. Contains special glycols that keep brushes from sticking or over rubbing surfaces. The high foam is stable and very easy rinsing. Multiple fragrances and colors available.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 7-8      **Dilution:** 1:150-1:400

# FOAMERS

## HAND & BUCKET WASH

### XTR Plus

Ref No. 1503

#### All Purpose High Foaming Hand Wash Detergent

An environmentally formulated high foaming hand vehicle wash. Quickly removes dirt and road film from surfaces while adding lubricity to brushes for added performance and surface protection. This product is great for use on site as a prep detergent or as a one step in fleet washing.

**pH:** 7

**Dilution:** 2-4 oz / Gallon

### XTR-1000

Ref No. 1507

#### Concentrated Hand Wash Detergent

A super concentrated environmentally formulated high foaming hand vehicle wash. Quickly removes dirt and road film from surfaces while adding lubricity to brushes for added performance and surface protection. This product is great for use on site as a prep detergent or as a one step in fleet washing.

**pH:** 7

**Dilution:** 1-2 oz / Gallon

### Wash & Wax

Ref No. 1511

#### High Foaming Hand Wash & Wax Detergent

This high foaming detergent will provide cleaning power as well as lubricity to brushes to help prevent scratching and streaking. Formulated with special polymers and carnauba for added performance and protection. Surfaces will sparkle after vehicle is cleaned.

**pH:** 1

**Dilution:** 2-4 oz / Gallon

### Prep

Ref No. 1054

#### High Foaming Bucket Soap

A liquid high foaming vehicle wash which can be used in automatic conveyor and hand wash applications. A favorite in Auto Dealer Prep Wash Bays and Detail Shops Wash Bays. This high foaming soap works well as a cloth lubricant and great in Foamer Applicators. Allows for easy, free-rinsing and delivers a bright shine to every vehicle.

**pH:** 1

**Dilution:** 2-4 oz / Gallon

# FOAMERS

## POLISHES & CONDITIONERS

### XT-2

Ref No. 4635

#### Premium Triple Foam Conditioner

A premium high foaming triple foam conditioner. Provides a deep vibrant wet foam that rinses quickly and easily. PH balanced for easy use in any wash system on both brushes and cloth. Contains special lubricating agents to maintain optimal performance of brushes.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 3-4      **Dilution:** 1:100-1:250

**Available Fragrances:** Cherry Blossom, Melon Fields, Grape Vine  
Green Apple, Pina Colada, Bubble Gum

### Xtreme

Ref No. 4633

#### High Foaming Triple Foam Polish

A premium high foaming triple foam polish. Deep vibrant foam hangs on vehicle for optimal visual appearance then rinses quickly and easily. Contains special lubricating agents and siliconized polymers to help maintain optimal performance of brushes while leaving behind surface protectants.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 3-4      **Dilution:** 1:100-1:250

**Available Fragrances:** Cherry Blossom, Melon Fields, Grape Vine  
Green Apple, Pina Colada, Bubble Gum

### TriFoam

Ref No. 4634

#### High Foaming Triple Foam Conditioner

A high foaming low pH triple foam conditioner. Provides a deep vibrant wet foam that rinses quickly and easily. Contains special lubricating agents to help maintain optimal performance of brushes.

**Recommended Application:** Automated Rollover / Tunnel Wash Systems

**pH:** 7      **Dilution:** 1:100-1:150

## Pro Tip

Triple Foams can be used in both the wash end and the wax end of the carwash. Applied in the wash end, a triple foam has some conditioning properties, lubricates cloths, and adds to customer experience. When added after the high-pressure rinse, it will function similarly to a clear coat protectant. Effective in both applications is the use of a low pH product. This will help neutralize any alkaline residue from the presoaks and help enhance the drying cycle. Surfaces without alkalinity will break the water faster and more effectively from the surface.

# DRYING

## DRYING AGENTS

### Super Dry

Ref No. 4732

#### Premium Super Concentrated Drying Agent

A premium concentrated drying agent and spray wax. This product will deliver quality beading and drying at an economical dilution. Hydrophobic drying aids repel water to quickly dry vehicle surfaces. Enhances any wax or sealant coat for improved longevity with a high-gloss shine. Available in multiple fragrances.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7      **Dilution:** 1:300-1:500

### Chamois Dry

Ref No. 4662

#### Premium Drying Agent

An all new highly concentrated drying agent & spray wax. Super Dry provides superior drying at an economical dose. Vehicle surfaces will be left water and spot free. Watch the water bead off immediately.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7      **Dilution:** 1:300-1:500

### Desert Dri

Ref No. 4664

#### Spray Wax & Drying Agent

A multi purpose drying agent and spray wax. This product will deliver quality beading and drying at an economical dilution. Hydrophobic drying aids repel water to quickly dry vehicle surfaces. Versatile enough to be used in almost any car wash application. Available in multiple fragrances.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7      **Dilution:** 1:250-1:500

### Quick Dry

Ref No. 4667

#### Multi-Purpose Drying Agent & Spray Wax

A multi purpose drying agent and spray wax. This product will deliver quality beading and drying at an economical dilution. Hydrophobic drying aids repel water to quickly dry vehicle surfaces. Versatile enough to be used in almost any car wash application.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7      **Dilution:** 1:150-1:300

# PROTECTANT

## TOTAL SURFACE PROTECTANTS

### Luster

Ref No. 4660

#### Complete Surface Protectant

A premium drying agent and surface protectant in one product. Contains special polymers, builders, and siliconized carnauba that not only bead water from the surface during the drying cycle, but will provide protection to glass and surfaces after the vehicle has dried. Contains UV protectants for added protection.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7

**Dilution:** 1:250-1:500

### Protect

Ref No. 4666

#### Clear Coat & UV Surface Protectant

A vanilla clear coat sealer that will provide surface protection and luster to any clear coat surface. Provides enough drying power to be used as a one step product or can be used in conjunction with a drying agent in a double arch system. Will aid in slowing the build up of dirt and road film on the surface.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7

**Dilution:** 1:250-1:500

### Showtime

Ref No. 4666

#### High Foaming Surface Protectant

A concentrated lubricating vibrant foam especially designed to polish and shine as it cleans. This non-abrasive formula is free-rinsing and contains UV protection. Adds water repellency, increasing performance and quality of the drying cycle.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 6-7

**Dilution:** 1:100-1:300

### Repel

Ref No. 3859

#### Glass & Surface Protectant & Water Repellent

A revolutionary blend of additives that repel rain, water and dirt from windshields and clear coats. Allows for better vision during rain and snowy driving conditions. Vehicle surfaces will bead looking freshly waxed. Water beads immediately off the vehicle without water spotting.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7

**Dilution:** 1:100-1:300

# CERAMIC PROTECTANTS

Total Long Lasting Surface Protection For Vehicles

- Magnified Shine
- Premier Water Beading
- UV Protection

Formulated with Nano  
Technology Including...  
**SiO<sub>2</sub>, TiO<sub>2</sub>, Graphene**

## *What is Ceramic GUARD Technology?*

A premium long lasting surface coating and UV protectant for vehicle surfaces using nano technology. This advanced coating bonds with the vehicles surface to provide long lasting protection. Surfaces have a deep reflective shine that make colors deep and vibrant.

**M**ake the color on the vehicle deeper and more vibrant for months.

**S**eals surfaces providing water beading and hydrophobic surfaces.

**K**eeps glass and windshields clean and protects for weeks after application.

Part Number: 4766

# RhinoCoat

CERAMIC TOTAL BODY PROTECTANT

**PROTECTION LASTS FOR MONTHS**

## ***What is RhinoCoat?***

A Total Surface Protectant for vehicle surfaces infused with nano technology and siloxanes that leaves behind long lasting, deep color protection and incredible gloss. RhinoCoat offers a premium level of protection alone, leaving a silica-rich film behind that helps repel water, dirt, and other pollutants, keeping your car cleaner longer in automatic car wash equipment. Use it on a non-coated car to add water beading properties, or on a coated car to revitalize the existing coating and protection.

TOTAL PROTECTION

# CERAMIC PROTECTANTS

Part Number: 4770

## RHINO F3

### CERAMIC INFUSED FOAMING PROTECTANT

Rhino F3 offers all of the benefits of the extreme polish but is infused with ceramic nano-technology. The polish coats your vehicle in foam while providing a silky smooth shiny finish. Adds UV protection and enhanced drying characteristics. Builds shine with every application.

**pH=4 | Dilution=200-400:1 | Color=Multiple**

Part Number: 4771

## RHINO FUSION

### CERAMIC & GRAPHENE INFUSED FOAM DETERGENT

Rhino Fusion is a high foaming protectant infused with cleaning properties and ceramic guard technology to provide superior durability, more clarity and it gives the vehicle a smooth, silky surface. For use in lava foam applicators.

**pH=7 | Dilution=150-300:1 | Color=Purple**

Part Number: 4778

## RHINO GLAZE

### CERAMIC & GRAPHENE INFUSED COMPLETE SURFACE PROTECTANT

Rhino Glaze is a multi level formulation combining drying, beading, and protection. Leaves a shiny, silky look and feel to the exterior. It creates a deeper, better shine and strong, durable finish. Ultra can be used in the tunnel as a drying agent or as a stand-alone product.

**pH=7 | Dilution=300-600:1 | Color=Blue**

Part Number: 4772

## RHINO 3X COMPLETE CERAMIC INFUSED FOAMING PROTECTANT

Rhino 3X Protectant uses the power of Graphene Oxide based to provide a coating that will provide a high level of protection longer than Ceramic protectants. With a continued focus on ceramic-based cleaners and coatings the car wash in graphene based products provide a high level of protection, so automobile enthusiasts have little choice but to take notice if they want to keep their cars looking sharp.

**pH=4 | Dilution=200-600:1 | Color=Blue**

Part Number: 4779

## RHINO SHINE CERAMIC INFUSED TIRE DRESSING

Rhino Tire Shine uses the power of Graphene Oxide based to provide a special coating to rubber that will provide a longer level of gloss and UV protection than traditional tire dressing. With a continued focus on ceramic-based cleaners and coatings the car wash in graphene based products provide a high level of protection, so automobile enthusiasts have little choice but to take notice if they want to keep their cars looking sharp.

**pH=7 | Dilution=RTU | Color=White**

### THE GRAPHENE ADVANTAGE:

The coating contains a black graphene oxide powder. This component enhances the surface underneath, rather than just adding a glossy layer on top. This means that while it will add gloss and depth to a glossy surface, it will not do so to a matte surface. Therefore, it can be used on matte surfaces without affecting the finish. Graphene's thermal properties allow it to be applied in direct sunlight easily and without the worry of high spots, streaking, or a difficult buffing process. These same thermal properties also help prevent hard water spots from occurring. The graphene layer absorbs the heat, keeping the paint underneath cool, helping to prevent the hard water spots from etching into the clear coat. If water spots do occur, they should easily be wiped off. It is safe and effective on various surfaces, including paint, glass, wheels, plastic, and metal.

# WHEELS

## WHEEL & TIRE CLEANERS

### 4602 Rimz

Ref No. 4602

#### **Acid Based Wheel & Brake dust Remover**

An economical acid based wire and wheel cleaner and brightener. Watch heavy brake dust and road grime melt away in front of your eyes. This product will act instantly, allowing uses in the shortest of application areas. Contains special inhibitors to help protect wheels and application areas.

**Recommended Application:** Tunnel Wash Systems

**pH:** 1      **Dilution:** 1:6-1:36

### 4619 Wheel Brite

Ref No. 4618

#### **Non HF Acid Wheel Cleaner**

An economical phosphoric acid based wire and wheel cleaner and brightener. Watch heavy dirt and road grime melt away in front of your eyes. This product will act instantly, allowing uses in the shortest of application areas. Contains special inhibitors to help protect wheels and application areas.

**pH:** 1      **Dilution:** 1:6-1:36

### 4600 Wheel Cleaner

Ref No. 4600

#### **Heavy Duty Alkaline Wheel & Tire Cleaner**

A premium heavy duty alkaline wheel cleaner that cleans and penetrates white walls and tires without the use of harsh acids. Breaks down the bond between dirt and wheels, making removal easy and quick. Penetrates deep into whitewalls to leave them looking new.

**Recommended Application:** Tunnel Wash Systems

**pH:** 14      **Dilution:** 1:6-1:36

### 4604 Wheel Magic

Ref No. 4604

#### **Non Hazardous Wheel Cleaner**

A premium high foaming fragrant tire and wheel cleaner. This product is non hazardous making it safe to use on all OEM wheels and any application. Formulated with high foaming detergents at add eye appeal as well as lubricity to brushes in manual systems. High levels of fragrance provide enhanced customer satisfaction.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 12      **Dilution:** 1:10-1:36

# WHEELS

## TIRE DRESSINGS & PROTECTANTS

### Krystal Blue

Ref No. 2427

#### Premium Tire Shine For Automated Applicators

A premium long lasting solvent based tire dressing for use in automated foam applicator systems. This advanced formulation will leave a long lasting deep shine on tires after application without slinging. Special silicones will not leave behind a sticky residue, eliminating the buildup of dust and dirt on wheels and tires. Quick leveling and fast drying prevent build up and spotting on surfaces.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7      **Dilution:** Ready To Use

### Black Beauty

Ref No. 1048

#### Solvent Based Tire & Trim Dressing

An economical long lasting solvent based tire dressing. This advanced formulation will leave a long lasting deep shine on tires after application. Special silicones will not leave behind a sticky residue, eliminating the buildup of dust and dirt on wheels and tires. Quick leveling and fast drying prevent build up and spotting on surfaces

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** NA      **Dilution:** Ready To Use

### 2433 Tire Shine

Ref No. 2433

#### High Gloss Water Based Tire Shine

A concentrated high gloss, high viscosity, fast drying and long lasting water based tire dressing. This product works extremely well when applied by hand using a brush or applicator pad. Will not sling onto the side of vehicles.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7      **Dilution:** Ready To Use

# ULTRA

## ULTRA CONCENTRATED SYSTEM

### Ultra 130

Ref No. 4730

#### Concentrated Alkaline Presoak

A fast rinsing alkaline presoak detergent that will provide quick and effective results. Starts breaking down road film on contact. Contains chelating agents and emulsifier for hard water applications. Specially formulated for operators who need a one step fast acting product.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 14

**Dilution:** 1:300-1:600

### Ultra 103

Ref No. 4763

#### Concentrated Low pH Presoak

A low pH non hazardous presoak cleaner that penetrates deep into dirt and road film, dissolving the bond between dirt and the surface. This product contains no harsh acids. This product prepares surfaces for foamers and drying agents, making the process more effective.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 1

**Dilution:** 1:250-1:500

### Ultra 106

Ref No. 4726

#### Concentrated High Foaming Low pH Presoak

A safe and non-corrosive low pH high foaming presoak which can be used in Automatic Conveyor and Hand Wash applications. This high foaming soap works well as a cloth lubricant and great in Foamer Applicators. The low pH allows for easy, free-rinsing and delivers a bright shine.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 2

**Dilution:** 1:300-1:600

### Ultra 226

Ref No. 4726

#### Concentrated High Foaming Body Shampoo

A liquid high foaming vehicle wash which can be used in automatic conveyor and hand wash applications. A favorite in Auto Dealer Prep Wash Bays and Detail Shops Wash Bays. This high foaming soap works well as a cloth lubricant and great in Foamer Applicators. Free-rinsing and delivers a bright shine to every vehicle.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 7

**Dilution:** 1:300-1:600

# ULTRA

## ULTRA CONCENTRATED SYSTEM

### Ultra 505

Ref No. 4759

#### Concentrated Foaming Protectant

A concentrated lubricating vibrant foam especially designed to polish and shine as it cleans. This non-abrasive formula is free-rinsing and contains UV protection. Adds water repellency increasing performance and quality of the drying cycle.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

pH: 6-7

**Dilution:** 1:300-1:600

### Ultra 768

Ref No. 4768

#### Concentrated Total Surface Protectant

A premium drying agent and surface protectant containing special polymers, builders, and siliconized carnauba that not only bead water from the surface during the drying cycle, but will provide continued protection to glass and surface. Contains UV protectants for added protection.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

pH: 7

**Dilution:** 1:600-1:900

### Ultra 632

Ref No. 4732

#### Concentrated Drying Agent

A premium drying agent that not only forces water to bead from the surface during the drying cycle, but will provide continued protection to glass and surface. Contains UV protectants for added protection.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

pH: 7

**Dilution:** 1:600-1:900

### Ultra 803

Ref No. 4765

#### Concentrated Ceramic Protectant

A Total Surface Protectant infused with nano technology and siloxanes that leaves behind long lasting, deep color protection and incredible gloss. Leaves behind a silica-rich film behind that helps repel water, dirt, and other pollutants, keeping your car cleaner longer.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

pH: 7

**Dilution:** 1:600-1:900

# ULTRA

## ULTRA CONCENTRATED SYSTEM

### Ultra 437

Ref No. 4737

#### Concentrated Triple Foam Polish

A premium high foaming triple foam polish. Deep vibrant foam hangs on vehicle for optimal visual appearance then rinses quickly and easily. Contains special lubricating agents and siliconized polymers to help maintain optimal performance of brushes while leaving behind surface protectants

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 3-4      **Dilution:** 1:300-1:600

### Ultra 435

Ref No. 4727

#### Concentrated Triple Foam Conditioner

A premium high foaming triple foam conditioner. Deep vibrant foam hangs on vehicle for optimal visual appearance then rinses quickly and easily. Contains special lubricating agents to maintain optimal performance of brushes while leaving behind surface protectants

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 3-4      **Dilution:** 1:300-1:600

### Ultra 52

Ref No. 4752

#### Concentrated Alkaline Wheel Cleaner

A premium heavy duty alkaline wheel cleaner that cleans and penetrates white walls and tires without the use of harsh acids. Breaks down the bond between dirt and wheels, making removal easy and quick. Penetrates deep into whitewalls to leave them looking new.

**Recommended Application:** Automated Rollover / Tunnel / Manual Wash Systems

**pH:** 3-4      **Dilution:** 1:34-1:67

# INJECTables

**POWERFUL FRESH SCENT  
INJECTABLE FRAGRANCES**

**CUSTOMIZE YOUR CARWASH FOR YOU**

## INJECTables

### Concentrated Fragrance For Car Washes

A highly concentrated fragrance formulated specially for car wash applications. This product can be injected directly into the wash tunnel for optimal appeal or can be injected into detergent lines at the applicator site.

**Part Number: 3860**

pumpkin pie

chewy candy

waterlilly

pine tree

gingerbread

apple blossom

banana cream

black cherry

bubble gum

grapevine

When you want to customize your wash to meet your customers needs look to INJECTables. Powerful fragrances that you can inject into arches to offer increased customer appeal and product specialization. Make your car wash stand out and different from the rest. Choose fragrances for the season and create an experience for your customer. You know your customers best!

juicyfruit

outdoor fresh

peppermint

# VISION

## SELF SERVE CONCENTRATES

### Vison Bubble Bath

Ref No. 4700

#### High Foaming High Pressure Detergent

An ultra concentrated foaming liquid detergent that is used for high-pressure soap settings in a self-serve car wash. Used with a premixing or direct feed metering system and applied to the entire automobile surface with a high-pressure spray gun.

**Available In:** Bubble Gum, Grapevine, Berry Blast, Creamsicle

**Recommended Application:** Manual Wash Systems

**pH:** 10      **Dilution:** 1:200-1:300

### Vision Presoak

Ref No. 4702

#### High Pressure Presoak

Foaming presoak detergent. This product will quickly remove dirt, grease, proteins, and other road film buildup from vehicle surfaces.

**Recommended Application:** Manual Wash Systems

**pH:** 10.5      **Dilution:** 1:200-1:300

### Vision Bubble Brush

Ref No. 4705

#### High Foaming Detergent For Brushes

High foaming liquid neutral detergent containing special lubricating materials that will provide lubrication to any brush, helping eliminate scratching.

**Available In:** Cherry, Creamsicle, Vanilla

**Recommended Application:** Manual Wash Systems

**pH:** 7      **Dilution:** 1:600-1:900

### Vision Protectant

Ref No. 4709

#### Foaming Scented Drying Agent & Protectant

A vanilla clear coat sealer that will provide surface protection and luster to any clear coat surface. Provides enough drying power to be used as a one step product or can be used in conjunction with a drying agent in a double arch system. Will aid in slowing the build up of dirt and road film on the surface.

**Recommended Application:** Manual Wash Systems

**pH:** 7      **Dilution:** 1:600-1:900

# VISION SELF SERVE CONCENTRATES

## Vision Triple Foam Scented Triple Foam Detergent

Ref No. 4707
